

TITAN **MACHINERY**

Dear Counselor,

This letter is to inform you of the new Titan Machinery sponsorship program. The new sponsorship will pay all Central Community College diesel technology program school costs, including tuition, fees, books, and tools. The sponsorship does not provide for the cost of room and board. Selected students will be asked to work for Titan Machinery for two years upon completing their CCC diesel program AAS degree.

During the 2013-2014 school year, Titan Machinery will interview and select between 10 and 15 students to enter the CCC diesel program in the fall of 2014. To be selected:

1. Make application to CCC and be accepted
2. Complete the Titan application for the sponsorship (enclosed)
3. Visit the CCC diesel program (contact CCC admission's office)
4. Provide Titan Machinery and CCC with an ACT (preferred), COMPASS, or ASSET score.

To make application for the sponsorship, complete the enclosed application and mail to the address on the form. PLEASE ENCLOSE a copy of the student's grade transcript and results of one of the following: ACT (preferred), COMPASS, or ASSET test with the Titan sponsorship application. PLEASE SEND an official copy of student's ACT (preferred), COMPASS, or ASSET score to CCC registrar's office when making application to CCC. Acceptance to CCC will not be granted without one of these scores.

Titan Machinery is the world's largest Case IH ag and construction dealer with 16 locations in Nebraska, 150 locations in the Midwest and Southwest and 13 locations in eastern Europe. Titan employs nearly 1,500 people, with the highest percentage being technicians.

Titan Machinery looks forward to working with your students and CCC in their new diesel facilities.

Should you have questions about this program please contact CCC:

Larry Eastwood at 308.850.7097

Jeff Bexten at 402.461-2563
